How can the Learning Disability Partnership Board work better for people?

Peter asked the group to think about how the Partnership Board can work better for people.

Janet talked about making a directory of information for learning disability and autism topics, that people can look for online.

The group said this directory could also be put on the East Riding Yorkshire Council Health and Wellbeing Website or the Your Life Your Way website.

Rani said she would like the Partnership Boards support, to help her develop some work she is doing over the next 12 months to look at:

- Annual health checks
- Services for people with a learning disability who have dementia
- Low levels of support for people with a learning disability in the community, to improve and meet people's needs
- Different environments for when people reach crisis and are admitted to general mental health wards in hospital

Rani is going to work with patients and Primary Care Teams and share this work across East Riding to make sure that everyone gets the same service.

Any questions?

Sue said at the last Speak Up Group they talked about people going into crisis when their elderly parents cannot care for

them anymore or when they die. Sue said people want more support in place for when this does happen.

Rani said she would like to see a crisis care plan made, so when this does happen, people are supported for 48 hours, then 72 hours and longer.

Rani said that some carers are getting older so there needs to be planning work done around this. Rani said it would be helpful for the Partnership Board to think more about this topic.

Peter said the Carers Advisory Group are doing work to make a carers pathway or action plan.

Peter said when the Carers Advisory Group has a new Chair for the group, he will invite them to the Partnership Board to talk about this work.

Sandy said task and finish groups and coproduction cafes are a good way to get people involved and to hear people's feedback.

Peter said a calendar is going to be sent out in July about all the different topics the Partnership Board are going to talk about over the next year.

The group talked about making a picture of the Partnership Board to show:

- The different work that the Partnership Board is doing over the next year
- Who the Partnership Board members are
- Who the other learning disability groups are in the area

Any other business

Peter said the feedback about free disabled travel passes will now be sent to the councillors. Peter is going to invite Colin Walker to come and talk to the Partnership Board.

Paul thinks that you should be able to use your free disabled travel passes on trains as well as buses. Peter is going to share this feedback with Colin Walker.
