

Internet Safety

Do not share your information -

- **Full Name**
- **Address**
- **Telephone Number**

Report if someone is being unkind to you or others.

Private

Always make sure your settings are private on the internet.

Know what you are clicking on.
Some Websites are not safe.

Remember not everything you see on the internet is true.
Sometimes there is fake News.

A dark blue login form is shown. At the top, the word "Login" is written in white. Below it, the text "Please enter your email and password to log in" is displayed. There are two input fields: one for "Email:" containing the placeholder "yourname@email.com" and one for "Password:" with masked characters. Below the password field, there is a "Remember Me" checkbox and a "Forgot password?" link. At the bottom of the form is a blue "LOGIN" button.

Sometimes you may need to create a login for a website.
Make sure you do not share this information.

Some things on the internet cost. Make sure you do not put your bank details in if you are unsure.

You will need to make sure you have enough data on your device because the internet will need to use some of it.

Only open an email if you know who they are from. If you get an email and it looks strange report it.

Some people do not share real photographs of themselves.
